PRICE 5 CENTS

5 Russ Divisions On Slav Frontier

Troops and Armor Massed
But Attack Is Discounted

BELGRADE, Yugoslavia, Aug. 31.—The Russians massed five armored divisions on the Yugoslav border today and Yugoslavia immediately rushed an ambassador back to United Nations headquarters in New York to stand by for action.

Major Import Attached To Soviet Blast

MOSCOW, Aug. 31.—(AP)—Russia's latest verbal blast at Yugoslavia Marshal Tito was regarded by foreign diplomats here today as of major importance.

All Moscow papers carried page-long accounts of the note sent Yugoslavia yesterday, which denounced Tito's government as a deserter from socialism and an ally of the western powers.

Foreign diplomats whose business it is to interpret developments here for their home countries sharpened their pencils and began interpreting all over again.

NO HINT OF POLICY—This dispatch, which passed through Soviet censorship, gave no indication as to what changes in Russian policy—if any—may be indicated. There have been unconfirmed rumors in Belgrade of Soviet army troop movements in Hungary and Romania near the Yugoslav border.

(Representatives of Russia and six other Communist countries, including Europe—Balkan, Soviet, Tito—met last week in Sofia, Bulgaria, Moscow radio described the meetings as a conference of the economic council of mutual assistance and reported that "necessary decisions" had been taken.)

The latest Russian note denied Yugoslav charges that the Soviet Union had double-crossed Yugoslavia by abandoning Tito's claims to a sector of southern Austria. In caustic terms, it accused Tito himself of giving up his Austrian claims and trying to put the blame on Russia.

Called Groveler

Under a cartoon captioned "one more fascist groveler," the trade union front pictured Tito as a big, grinning, groveling man, with a wide, toothy grin, and a wall street wall through, ranged alongside Tito in the cartoon were Generalissimo Francisco Franco, Foreign Minister Constantinos Tsaldaris of Greece.

1,600-Mile Dental Odyssey Is Made by Aklavik Family

By Art Etter

How would you like to have to bring your family 1,600 miles by barge, taxi and bus to see a dentist?

That's what Adolphus Norris of Aklavik has just done.

That's what Adolphus Norris of Aklavik has just done. Because the Anglican mission dentist who visits Aklavik once a year is booked solid during his month's stay there, Mr. Norris packed his wife (suffering a severe toothache) and two daughters aboard his tug boat, hatched on a 6x12 foot barge, and started for Edmonton about three weeks ago.

Rough Trip

Safely in the chair of Dr. Don McIntyre, the trader and trapper from the rim of the Arctic Ocean told us about the rough trip.

Accompanied by a second tug, Barney McNeill and S. M. Peller, both of Aklavik, the Norris family spent 20 days on the Mackenzie River, approximately 1,100 miles.

Between Normal Wells and Fort Simpson, they encountered so much driftwood that they could not move for several days. High swift water also delayed their progress upstream.

From Hay River the travellers took a taxi to Grimshaw, which they reached in one day, and from there to Edmonton it was a bus trip.

2-Year Internal

It is Mr. Norris' first trip to Edmonton in three years, and he just had to come because of the family's dental difficulties.

He and his three sons operate a trading post in the small community of Aklavik about 60 miles from the Arctic Ocean on the delta of the Mackenzie.

They will take back with them from Edmonton about 20 tons of foodstuffs, d-goods and hardware, and buy four and vegetables in the Peace River country.

The Norries are all submitting to a concentrated dose of dental attention, since they are anxious to get back before an early freeze-up has a chance to strand them. Mr. Norris says it will take them about 10 days for the return trip. Mr. Norris went to Aklavik 20 years ago from Leduc and he says his family like the land of the midnight sun.

HAROLD J. BURKE
Fire consultant here.

U.S. Fire Expert Here To Carry Out Probe

American fire expert Harold J. Burke of New York City arrived in Edmonton last night to begin investigation of the \$3,000,000 Northern Hardware Co. fire which occurred last March.

Building At \$26.5 Million

City construction permits today received a \$300,000 boost which sent the year's total to almost \$26.5 million.

Crane Ltd. received a building permit for a \$231,500 office and warehouse at 11925 Kingsway. It will be a 141,107 foot masonry building. Bule, Wyman and Bule are architects and Pools Construction Co. Ltd. are contractors.

Dominion Rubber Co. Ltd. took out an \$80,000 permit for an \$48,100 fire reinforced concrete office and warehouse at 11614-116 street. Dominion Construction Co. are both architects and contractors.

Kraft Foods Ltd. was granted a building permit for a \$75,000 reinforced concrete office and storage building, 90x130 feet, at 11602-119 street.

Captain In Navy

Mr. Burke is author of numerous articles and books on fire protection. During the war, he served as captain in the U.S. navy, and worked for a time in Halifax with the Canadian navy helping the RCN set up damage control in the eastern port.

He received his American Legion of Merit for his fire damage protection work in the U.S. navy.

Merle Oberon Sees Fiance Killed

NICE, France, Aug. 31.—Reuters—Merle Oberon, the actor, saw his fiancée, Countess Giorgio Cini, and his pilot killed today when their plane crashed after taking off from Cannes airport.

Pilot of the plane was Giorgio Girardelli.

In a two-engine plane chartered from an Italian firm, the actress' fiancée took off and crashed the air field once normally then made a second circuit extremely low. A fire erupted, and the plane caught fire.

Airmail Service

OTTAWA, Aug. 31.—(CP)—Inauguration of an airmail service to Tokyo and Hong Kong is being arranged with the first flight tentatively scheduled for Sept. 18, the post office department announced today.

UNCLE SAM WANTS A CUT

Worries Far From Over For Big Radio Winners

BOSTON, Mass., Aug. 31.—(AP)—Two New Englanders who won more than \$36,000 in prizes from a radio giveaway program hoped today they could sell some of the stuff to pay federal taxes. "I'd like to sell all of it," said Ernest Morin, 27-year-old Springfield, Mass., insurance salesman, who said after winning what he estimated was \$12,000 in prizes from the Columbia Broadcasting System's "Hit the Jackpot" program.

Almost the same sentiment was voiced by Miss Marjorie Ferguson, a New Haven, Conn., grade school teacher who won \$13,500 in prizes on the Kate Smith American Broadcasting Company's telephone quiz show.

Morin won a 1949 sedan, a trip

for two weeks to the Mediterranean, luggage, a diamond ring, a piano, a wristwatch set in precious stones and other prizes for correctly identifying CBS' "Jackpot" riddle as "Sisters under the Skin."

"But it was my wife who really won the prize," he said modestly. She said she would postpone the trip to France which she won until next summer because she was too busy teaching in another week.

Morin also was happy about winning but after receiving wire and telephone calls from sources of friends and relatives, he remarked:

"I hope it's the last time I win anything for me."

Mr. Carr was taken to hospital by a University of Alberta agricultural research worker, J. E. F. Ferguson, of 1001-1015 street. Accident occurred near Winterton road, six miles north of Edmonton.

Six Bushels Per Acre Drop in Wheat Yield

Crash Dead Unknown In 3 Planes

2 USAF Bombers,
One Flying Boat
Involved in Wrecks

By the Associated Press

An unknown number of U.S. Air Force and Navy personnel were killed yesterday and today in three crashes of big planes in widely separated areas of the United States.

Established death toll includes three men in two USAF bombers, one a jet and an unknown number in the crash of a huge U.S. Navy flying boat.

JET BOMBER

Near Shreveport, La., a B-47 USAF jet bomber crashed and burned on a cotton plantation today, killing two men.

An engine fell on the W. C. Adair pasture, at Dixie, La., 15 miles from Shreveport, and started a huge grass fire. Wreckage was strewn over a 300-yard area.

B-47s usually carry a crew of four but it was not immediately learned whether the wrecked craft had a full crew aboard.

TOLL UNKNOWN

A giant United States Navy Martin bomber flying boat crashed today in the ocean and burned two miles west of San Diego, Calif., carrying some members of the crew of 10 to their deaths.

Some survivors were picked up by rescue craft. Number of fatalities was not known immediately.

A B-29 bomber crashed yesterday in Idaho, killing one man. The Spokane river in Washington, but only one of the 15 airmen aboard appeared lost. The others parachuted to safety.

SUCCESS STORY

House Sales Gain Speed This Way

Bulletin want ads proved to be entirely too good for one Edmonton woman.

Yesterday, classified ad section of the new Bulletin, her husband advertised a \$5,000 house and garage for quick sale, asking a \$300 down-payment.

The house was sold within an hour after the paper appeared.

But the buyer didn't end there. Phone calls besieged the harassed housewife preparing supper, and at 8 p.m. last night she phoned the Bulletin to tell off-icers she didn't know how to stop all the calls.

She had more than 79 by then. And while her phone kept ringing, today's edition of the Bulletin will bring more success stories for Bulletin want ads.

Because the Bulletin want ads bring results, Phone 42111 to try them.

She had more than 79 by then. And while her phone kept ringing, today's edition of the Bulletin will bring more success stories for Bulletin want ads.

NEW POST will be held by Edmontonian D. A. Roper Marshall. Trade department announces his appointment as commercial secretary at The Hague, Netherlands. He was former head of foreign section, agricultural department's economic division.

Rugby Seats Ready Monday

Seating accommodation will be completed at Clarke Stadium for next Monday's rugby game, but fans may have to put up with temporary refreshment facilities.

"We are doing our very best to accommodate the fans, but I'm afraid the two concession stands under the new grandstand will not be finished by the first game, and perhaps by second or third," says A. C. "Sandy" Patterson, parks superintendent.

All equipment is ready for installation when booths are completed, but workmen are still laying concrete for wash room facilities and for concessions.

"We are trying to get a marquee and kitchen equipment ready so patrons won't be too hungry," says Mr. Patterson.

Painting is completed on the new east side stand, but seat number stencilling will not be finished by Monday. Painters are some spraying paint on the old west side stand. It will be ready in time for Monday's game.

Peat Plant Loss Totals \$300,000

BURNABY, B.C., Aug. 31.—BUP—Flames licked through a 12-year-old wooden one-story peat plant in Burnaby municipality of B.C. today morning, destroying the building and contents and causing \$300,000 damage.

Firemen reported they had difficulty getting water to play on the burning peat. Peat Company plant in Burnaby municipality of B.C. today morning, destroying the building and contents and causing \$300,000 damage.

The fire was believed to have started in a storage room, quickly spreading throughout the building.

Alberta's Harvest Far Under Normal

Alberta farmers will harvest about 11 bushels of wheat to the acre this season, department of agriculture officials estimated today.

The yield is expected to be 6.4 bushels an acre less than the 17.4 bushel normal for wheat harvests.

Early spring drought which parched early germinating crops heavy July rains which prompted a second growth in some Alberta fields and the threat of frost before cutting is general within two weeks is blamed for the low yield.

Less than half the number of eastern Canadian harvesters required last year will be brought to Alberta to aid in harvesting operations this season, officials said.

BARLEY ALSO DROPS—About 150 harvesters from Ontario are now in Alberta and another 300 will arrive within two weeks. Last year 1,000 harvesters came west for the heavy harvest.

Barley yields are expected to be about 18 bushels to the acre this year compared to 27 bushels normal, and oats are estimated at 24 bushels an acre compared to the 34 bushel an acre average.

SUPPORTS MOVED—Supports under the ski jump on Connors Hill will have to be widened to accommodate the new right-of-way along which trolley bus is scheduled to start operation in the fall of 1950.

Families occupying sites on the east of way have been doing so on month-to-month rental basis, with no lease.

Frequent verbal attacks have raged around "squatters" who live in the area since it is designed as park and fall utilities services are not available.

WORKING IN GARDEN—Reports said Mrs. Witruk was picking in her garden and that the runaway train, driven by Mr. Witruk, swerved out of control directly into her path.

The victim died without regaining consciousness, officials of St. Catherine's hospital at Lac La Poudre stated today.

Northwest Air Command here dispatched an RCMP detachment carrying blood and plasma to doctors attending the victim.

FIVE TRANSFUSIONS—Five transfusions of plasma from stocks stored in the hospital by the Canadian Red Cross were administered to the victim.

Blind and equipment were packed in a special parachute container, but the aircraft was able to land.

Rescued by husband, Mrs. Witruk is survived by a 12-year-old son.

Plains drawn up by City Development Engineer A. W. Haddow and Jack Myer of the parks department will now be proceeded with, Mayor Ainsley says. Work will get underway next week.

BELL OF PROGRESS tolls soon for old Canadian National Railway station just west of 101 street. Picturesque gabled brick structure, built in 1905, will be demolished soon to make way for modern \$750,000 freight terminal. Work on new freight sheds will start within few weeks, it was announced by H. H. Sparling, Winnipeg, general manager, CNR, western lines. Old depot has been used for offices and extra storage space.

Youthful Speed Demons Prepare for Big Labor Day Soapbox Derby

YOUNG SOAP BOX derby entrant Howie McNeely fits Masonite side of "bug" in preparation for Labor Day derby on McDougall Hill. Howie will be entering soap box race for first time. Twelve-year-old son of Mr. and Mrs. M. F. McNeely, 11606-90 street, says he'll enter priesthood when he grows up. Right now he's interested in winning race.

SECOND ATTEMPT at soap box crown will be made Monday by 13-year-old Jack Reilly of 11645-90 street. Jack, who wants to be mechanic, lost out last year when he jammed on brakes to avoid ramming motorbike which leads racing bugs down steep hill.

STREAMLINED bug owned by Bill Dickson, 11709-90 street, is given lubrication job by Mike McNeely as day of soap box derby draws near. Entries for derby are pouring into city Recreation Commission headquarters and officials predict record field surpassing last year's 84 contestants. Prizes will include deluxe bicycle, wrist watch and record player.

Gov't Lake Project To Cost \$100,000

Raising Winagami Level To Nine Feet Is Object

Seed Cleaning Costs \$30,000

Alberta government is spending \$30,000 this year to improve seed cleaning facilities in various rural areas of the province. This was announced today by department of agriculture officials. General agreement between the government and municipalities provides that the government will finance up to one-third of the cost of seed cleaning plants. If the river will be closed and similar work will be carried on to raise the level of nearby Lake Kimmivan. Next year the diversion of the river will be closed and similar work will be carried on to raise the level of nearby Lake Kimmivan.

Milk Survey Nearing End

Survey of Edmonton's stores retailing milk on Sunday has been completed, according to Dr. G. M. Little, medical officer of health. The survey disclosed there are 146 retail outlets for Sunday milk sales, with adequate refrigeration accommodation. Locations of these stores are being plotted on a map for submission to the Board of Public Utilities Commission hearing which will re-open on September 7. The board is enquiring into feasibility of continuing the non-delivery of milk in the city on Sunday. Opposition to the continuance was expressed by consumer organizations at hearings of the board. At that hearing the board members, Dr. M. Blackstock, K.C., and Bruce W. Massie, K.C., ordered the survey.

Farmers' Cash Position Good

Business outlook throughout the Dominion is "good," according to E. G. Baker, Toronto, president of Canada Life Assurance Co. Commenting on Alberta's economic situation, Mr. Baker said his company was loaning money in this district and throughout the province with confidence. He added that never in the history of western Canada were farmers so free from debt. Their cash position has materially improved, he stated. Today he toured Leduc and Redwater oilfields and will leave later for Calgary with W. J. Winn, supervisor of investments for the company in Edmonton.

Changes Announced In School Boundary

Boundary regulations were announced today by Edmonton public school board officials for Jasper Place, Grovenor and Oliver schools. Pupils in grades one to six living in the following area will attend Jasper Place school: north boundary of the area extends west from the river to middle of 142 street to 149 street; west boundary is the middle of 149 street; south boundary is the river. Grade four, five, and six pupils living within the following boundary will also attend Jasper Place school: south boundary is middle of Stony Plain Road; east boundary is middle of 146 street; north boundary is middle of 109 avenue; west boundary is middle of 149 street. Grovenor school boundaries were also announced today. Pupils in grades one to six living in the following area will attend Grovenor: north boundary is the river to the middle of 142 street to the ravine; west along ravine to city limits; east on Stony Plain Road to 146 street; north on middle of 146 street to 109 avenue; east on middle of 109 avenue to 130 street; south on middle of 130 street to the river. At either one Grade one, two and three pupils in the following district will attend Grovenor: west boundary is middle of 149 street; south boundary, middle of Stony Plain Road; east boundary, middle of 146 street; north boundary, middle of 109 avenue. Grade seven, eight, and nine pupils living west of the middle of 142 street, between the river on the south and 106 avenue, including both sides, on the north, will attend Grovenor junior high school. Pupils who attend Oliver school, in grades eight and nine in 1949, and who reside west of the middle

Pioneer Judge Back For Brief Visit Here

By the Staff

DEFENCE COUNSEL

Appointed by federal department of justice to defend two Eskimo youths charged with murder of an Eskimo woman, T. D. Macdonald, K.C., arrived in Edmonton today. He will leave for Coppermine, N.W.T., Thursday morning.

ENROUTE TO JASPER

Col. W. J. Lawson, vice judge advocate general, army headquarters, Ottawa, was in Edmonton yesterday enroute to the Bar Association convention at Banff. On annual leave, he is accompanied by Mrs. Lawson.

IN CONFERENCE

President of Watrous Ltd., Alex. B. Vasey, Brantford, arrived in the city today in the course of a routine business trip. He conferred with W. G. Christian, manager of the Edmonton branch. Later he visited the Leduc and Redwater oil fields.

FROM TORONTO

Making a routine tour of western Canada, G. A. McMillan, Toronto, western Canada sales manager, Massey-Harris Company Ltd., arrived in Edmonton today. He is conferring with J. A. Hills, manager of the company's Edmonton branch.

FROM MARITIMES

Veteran Nova Scotia newspaper publisher A. R. Coffin, Turro, is in Edmonton in the course of a tour of western Canada.

He is accompanied by his wife and two daughters. The party stopped over here for one day to visit the oil fields in vicinity.

Mr. Coffin is publisher of the Turro Daily News and has been head of this publication for the past 30 years. The party will leave for Victoria Thursday.

EDMONTON BULLETIN, Wednesday, Aug. 31, 1949

Pioneer Judge Back For Brief Visit Here

Pioneer Alberta teacher and now judge of district courts of South and North Hilo and Puna, Hawaii, Judge Harry Irwin arrived in Edmonton today in course of a motor tour of the Dominion.

Alberta Leads New Insurance

Alberta leads all provinces in Canada in percentage increase of new insurance written.

This was disclosed here today by F. W. Hill of Toronto, assistant general manager, and actuary, Crown Life Insurance Co., who is making his first tour of western Canada.

He is accompanied by A. F. Williams, Toronto, superintendent of agencies. Insurance written in Canada during the first six months of this year established an all-time record, he said.

Alberta led the field in percentage of this increase with 17 per cent compared to four per cent for the whole of Canada.

While breakdown has not been made of Alberta's figures it is indicated that life insurance written in the Edmonton district accounts for most of the province's remarkable increase.

Crown Life will materially expand its activities in this province, according to Mr. Hill. He gave no details of the proposed expansion. During his visit here he conferred with Fred Snell, the company's Alberta representative.

3 DRIVERS GET WARNING ON CROSSINGS

Tomorrow is the first day of school and police have issued a warning to motorists to drive carefully in the vicinity of schools.

With record enrollment in schools this fall, more caution than ever must be exercised by drivers, they emphasize.

After a summer of school zoneless driving, police find many drivers unconsciously speed past schools. They warn that traffic officers will be watching school zones closely to catch these offenders.

Coal Problems Under Discussion

Problems of Alberta's hard-hill coal industry are being discussed today by the board of industrial relations, meeting coal operators at the provincial building.

Coal industry has been seriously affected in Alberta by the abundance of recently discovered oil, and some mines have been forced to reduce working hours.

City Doctor Takes U.S. Varsity Position

Edmonton's Donald J. Campbell has been awarded a PhD in pharmaceutical chemistry. His pre-degree work was completed on application of radioactive isotopes in medical research at Purdue University, Lafayette, Indiana.

Son of Mr. and Mrs. Norman Campbell, 12724 106 avenue, Edmonton, Dr. Campbell is a science graduate of the University of Alberta. He received his Master and PhD degrees under a fellowship from Purdue University. He has been appointed to staff of University of Quebec, Clarksville, Ark., as director of pharmaceutical chemistry department. Dr. Campbell will also be in charge of setting up a research laboratory for radioactivity experiments under the direction of the United States Atomic Energy Commission and the biochemistry section of Argonne National Laboratories, University of Chicago. He is a member of the American Chemical Society, American Association for Advancement of Science, Sigma Xi, National Scientific Society, and Phi Delta Theta fraternity.

Presenting New Coats for Autumn Living

Autumn Living

"Weather-Rite" Coats for Year 'Round Service

When There's Chill in the Air Just "ZIP-IN" the Lining!

Gorgeous autumn colours and the rustle of falling leaves will soon combine with the tang of frost in the air to send a chill through you that calls for a coat that will serve for the changeable season ahead.

- Have a coat that follows the temperature faithfully as weather. When the forecast is "bitterly cold with light frost" you zip in the lining and when it is "fair and warm" you zip out the lining. It's that easy! Either way this coat is a pleasure to wear.
- Fabricated from 100 percent virgin wool that retains its soft suppleness after pressing and steaming.
- Styled with all the practical comforts you could want for without any suggestion of bulkiness... and without without weight for year round service!
- Choose from green, rust, wine, slipper blue, grey and black. Sizes 14 to 26. Outstanding value for just the cost.
- Purchasable on Budget Plan if more convenient for you.

What to Save Your Life

What the people of Edmonton should know and remember about the current traffic safety campaign is that its chief purpose is not to make things easier for the police or to facilitate the movement of traffic or to keep the law unbroken—but simply to save the people's lives.

When you co-operate in this campaign you are making a definite contribution towards the postponement of your own funeral.

It is true because an appalling percentage of accidental deaths occur in traffic.

For instance, it is an established fact that out of every 100 accidental deaths, 34.4 are caused by faulty operation of motor vehicles or by carelessness in respect to motor vehicles.

Only accidents in the home contribute more fatalities to the accidental toll than motor cars, home accidents causing 35% of such deaths.

Accidents kill more males on this continent than any other cause except heart disease and cancer. Out of every 100,000

of male population, 284 die of heart disease, 132 of cancer and 97 through accident.

Accidental deaths exceed in number those caused by cerebral hemorrhage, nephritis, pneumonia or tuberculosis.

Of the pedestrians killed in city traffic accidents in 1948, 35% were killed while crossing between intersections, 25% were killed while crossing streets against signals and 15% were killed while walking in the roadway.

One out of every four pedestrians killed in accidents had been drinking. One out of every six drivers involved in fatal accidents had been drinking.

Excessive speed contributed to 30 fatal accidents out of every 100.

These figures, and the many other types of statistics available with respect to accidents in this town, make it clear that safety experts know exactly what they are doing when they stage campaigns to educate the public into traffic safety.

It is the citizen's life that's at stake. If he values his life, he will co-operate.

What Lawyers Contribute to Life

The annual convention of the Canadian Bar Association, which is now under way at Banff, is always a memorable occasion because it is one of the factors that helps to keep the legal profession in this country on an unusually high level of efficiency and integrity.

The standards of the Canadian bar are equal to those of any other country and fairly tower above most.

The lawyers of no other nation are superior in ability, sincerity and ethics to those of Canada.

In all truth, this country owes a very great debt to the legal profession and to the men and women who are a part of it because that profession and its members have contributed something of inestimable worth to the civilization and way of life that are peculiarly Canadian.

The British tradition, in all its best aspects, has been scrupulously respected. And Canada, through following that eminent tradition and through the calibre of the men who uphold that tradition has developed into a country whose law really safeguards the freedom of the subject.

It is, of course, axiomatic that the law of a country can be no better than the men who interpret it.

For justice, after all, is less of a perfectionist ideal than a living application of principles arising out of the native spirit of equity in the persons who administer it.

For instance, the finest set of laws in the world would be ineptive if interpreted by inept and corrupt judges and lawyers without a deep sense of public responsibility.

Canada has been exceedingly fortunate, then, in the intellectual and moral qualities of those who have followed the profession of law.

As a result, this is a country that lives by law, not by the whims of oppression. For law is the chief arm of democracy. It is the defender of the poor, the protector of human rights.

No gain made by democratic effort, no liberty ripened in the crucible of human suffering is ever secure until it is guarded by a wall of incorruptible law manned by incorruptible and capable judges and barristers.

Keep Trained Canadians at Home

The present campaign of the federal labor department to "keep trained Canadians in Canada" is going to fall wretchedly if it rests on nothing more than a plea to employers to make room for every man and woman who graduates from Canadian universities.

Even if employers heeded that plea in a big way, which is not likely, the immediate preference to university graduates in various lines of business and industry would cause a tremendous periodic disruption in the labor market.

It would materially increase the labor turnover, which is one of the expensive items in industry.

And it would shove out into the streets literally thousands of skilled workers without university training and perpetrate an injustice rather too horrible to tolerate.

While it is eminently desirable that young men and women should be trained in Canada, largely at the public expense, should remain in Canada and

devote their services and training to Canada, the calamity of their departure to American fields of endeavor is considerably less in magnitude than the calamity inherent in the displacement of older men.

The chief labor problem in Canada today is not the employment of university graduates but the employment of men over the age of 50 whose term of usefulness, according to some twisted notion of the age, appears to come to an end at that point.

The true solution to the problem of "keeping trained Canadians in Canada," if there is a solution, lies not in sentimental appeals to employers but in increasing the scope of industry.

The extension of foreign markets, for instance, which enlarges the field of Canadian production, will do more to keep young university graduates in Canada than any hysterical doctrine that employers have to take in their stride for young men merely because they sport a sheepskin.

The Unseen Audience

By Webster

Letters to the Editor

No Child's Book

Editor, Bulletin—In a recent

returned from a visit to California

and indeed, call it false

anything about Canada? "Yes,"

she said. "It is a state of United

States."

With open eyes she looked at

me when I informed her that the

great Dominion of Canada is

larger than all of the United

States.

Promised this dear young

cousin a book about our colorful

Mounted Police. I have searched

stupidly, what thinking person is

that we don't publish children's

stories about Canada?

Edmonton. A. C.

Paizan

Great

Editor, Bulletin—In a recent

your paper Mr. Harold

Taylor is very critical of the film

Paizan and indeed, call it false

propaganda and would have it

barred from the country.

Forgive me if I saw no signs of

false propaganda. Mr. Taylor is

apparently referring to a scene in

which a few Italian critics two

years ago had purchased power

conducting the campaign their

way. But these officers are prob-

ably not the same as the ones

Even if they are in complete

command and are displaying

stupidity, what thinking person is

going to blame the whole British

army for their lack of decision?

"I don't know."

"Well, he says he can't write

plays now because there's no

clash of temperaments any more

no jealousy, no frustration, no

unhappiness. They deaden all

his smart lines, and as for mur-

der, even the children don't laugh

at that, old boy."

"Well, I suppose it doesn't mat-

ter very much. Whatever you

don't do, you do it right."

"Still, one does miss an audi-

ence. If I could get one laugh out

of them I'd do it for nothing."

"I was trying to think up a gag

about Utopia."

"What audience?"

"Utopia. Got it, old boy?"

"Yes, I've got it, old boy. Who

was that lady I seen you with last

night on Utopia-her?"

"That was no lady you seen me

with on Utopia. That was my

wife."

The scene depicts merely a mo-

ment in the months of confusion

and frustration in the battle of

Italy.

Mr. Taylor mentions had acting

Perhaps some of the bi-players

were poor but how poignantly

real was the scene between Jer-

sey Joe and the girl! And who

can forget the pathetic negro as

he imagined himself a hero back

home on Broadway! There were

the desperate tension in the

faces of Harriet and her friend

the deep insight portrayed by the

padre: the atmosphere of action

that was transferred to the audi-

ence by every word and gesture

of the burly American in the final

scene.

But it is more than good acting

which makes Paizan a powerful

film. Each section of the film

has to do in some way with the

deep things of life: courage, lone-

lity, integrity, humility, loyalty.

And there is nothing more im-

portant than to come face to face

with this kind of reality. Yet

the producers had a shortage of

hand can make real tragedy ridi-

culous; only an artist like Ross

can put it across.

For me Paizan was an enrich-

ing experience to be seen, like

Shakespeare's tragedies, again

and over.

FRASER MACMILLAN,

10950 82 Ave.

Co-operative

Economy

Editor, Bulletin—In "The

Canadian Social Credit" of

Aug. 12, we see stated again the

old SC fallacy that we have

seen now for over 15 years, about

the inevitable shortage of purchas-

ing power.

They cite "in other words each

cycle of production does not dis-

tribute sufficient money to pay

the people to enable them to pay

for the goods they have produced."

The above is similar to the

statement of the Alberts' pro-

claimer that if a billion dollars

worth of goods are produced and

the producers are paid a billion

dollars for it, clearly the consum-

ers are at least half billion dol-

lars short of purchasing power

and need Social Credit. It is

easy for all to see that if a bil-

lion dollars worth of goods into

the hands of the producers, they

have one billion not 1½ billion

dollars available to buy it.

The government of Germany

did that and also the SC govern-

ment of Chiang Kai-Shek in

China did that with disastrous

results. China solved the short-

age of purchasing power by

printing out more money. As a

result the American dollar nar-

rowly worth four Chinese you

came to be worth 12,000,000

Chinese yen. The Canadian gov-

ernment, during the war, printed

out extra money also, but during

the war they recovered most of

it by putting the hands of the

people there were goods avail-

able.

How, then, are we to avoid the

booms of war time and the busts

of peace?

A co-operative economy

wherein the unused profits are

all handed back to the pur-

chaser, there would always be

100 cents in purchasing power

to buy back every dollar worth

of goods produced. There would

be no shortage of purchas-

ing power, or any need of

Social Credit.

With public utilities supplied

to the public by the government

at cost, it is also a case where

there is never a shortage of pur-

chasing power. If a billion dol-

lars are put into the hands of the

public in the production and dis-

tribution of that production.

Continuing out of extra

money in Canada "Social Credit

or any other kind would bring

about a shortage of purchas-

ing power. It is brought in Ger-

many and China.

I. V. MACLACHLIN,

Grande Prairie, Alta.

Wants

Stamps

Editor, Bulletin—As one who

has been bed-ridden for over 15

months, you kindly help ease

the tedious hours! I am collect-

ing all kinds of postage stamps,

to try to forget the pain.

Will you please send me can-

dids, please, you will answer.

Thanks very much.

</

BIRD'S EYE STUDY of city was made yesterday by town planning consultants Prof. John Bland and Prof. Harold Spence-Sales, accompanied by City Architect Max C. Dewar. They were favorably impressed by view

from aloft, since it gives them good conception of urban area as whole, assisting materially in their survey. Here they study city's central area from Herb Peet's Beechcraft Bonanza.

PLANS FOR AERIAL survey are laid by Prof. John Bland and Herb Peet's just before takeoff. Cruising back and forth over city at varying heights and speeds, two town planning consultants from McGill University were able to get detailed picture of all sections and formulate possible answers to traffic bottlenecks, different types of development and relate knowledge gained from map study with actual physical appearance.

Airborne View of City Impresses Town Planners

After studying maps and charts for a week, Edmonton's two town planning consultants yesterday sprouted temporary wings to hoist them up for a better over-all look at the city.

What they saw from several thousand feet greatly impressed them in their survey, final results of which are scheduled to be ready by Sept. 10.

Their airborne office was a Beechcraft Bonanza owned and piloted by Herb B. Peet, owner and manager of OK Construction and Supply Co. Ltd. City Architect Max C. Dewar made arrangements for the tour and accompanied them.

A second Bonanza owned and piloted by Don McLaughlin, of Andrews-McLaughlin Funeral Chapel, took a Bulletin reporter and photographer aloft to record the aerial survey.

INTERESTED CITIZENS

Services of the aircraft were supplied gratis by the owners, both of whom are keenly interested in assisting the town planning survey.

For more than an hour the McGill professors cruised back and forth over all sections of the city at varying heights, studying in detail all aspects with which their survey will deal.

"Professors Bland and Spence-Sales were very much impressed with the view from the air, since it gives them a good concept of the city," reported Mr. Dewar.

"The river valley struck them as

being of great potential value to the city and they hope for its development and preservation as a park land.

"They were impressed with the problem of traffic routes feeding into the city, caused by the big river valley and the CNR tracks.

"The large amount of open space within the city boundaries quite impressed them, and they hope it can ultimately be exploited for both residential and commercial purposes.

Professors Bland and Spence-Sales are slated to meet Friday

Train Derailed By Mud Slide

VANCOUVER, Aug. 31.—(CP)—

The locomotive and six boxcars of a Canadian National Railway mainline freight train were derailed Sunday in a mud slide near Spence's Bridge, B.C., officials announced last night.

No one was injured and work crews now are in the area, 200 miles northeast of Vancouver, attempting to right the derailed cars. The freight was bound for Vancouver from Edmonton.

6 Canadian Plays Readied

TORONTO, Aug. 31.—(CP)—The new play society, a professional theatrical group seeking to develop a Canadian theatre, announced today plans to produce six plays by Canadian authors this season.

Mavor Moore, managing director, also announced the group will present Toronto's first pantomime in a decade, "Mother Goose," in the Royal Alexandra theatre at Christmas.

The society produced the first Canadian play to be performed in the 46-year-old Royal Alexandra last season in Morley Callaghan's "To Tell the Truth."

The six Canadian plays are among 10 the society will present at the Ontario Museum Theatre in Toronto between Sept. 16 and May 6. The group will also give performances in centres around Toronto.

The first Canadian play will be "Who's Who," written by Mr. Moore. The managing director and Mrs. Dora Mavor also will direct most of the plays.

Others include "Going Home" by Mr. Callaghan; "Narrow Passage" by Andrew Allan, who will also direct his play; "Louis Riel" by John Coulter and Harry Boyle's "The Inheritance."

Mother Beaten To Death By Son

JACKSONVILLE, Fla., Aug. 31.—

(AP)—A 31-year-old man yesterday beat his mother to death with a hammer, police said, just before a scheduled sanity hearing she had asked for him. The man, booked on a murder charge as John Edward Degoff, fled, but was captured a few hours later.

Magnetic Pole's Course Checked Two-Month Expedition OK's Former Work On Movement

By H. Dent Hodgson

OTTAWA, Aug. 31.—(CP)—A team of scientists and airmen flew back to nearby Rockcliffe today from their annual pole patrol and reported that the magnetic north pole is still functioning normally, well inside Canadian territory.

The magnetic pole, which jumps around a daily orbit of about 30 miles radius, is some 1,000 sea miles from the geographic north pole. Its location is about 73½ degrees north, 100 degrees west.

CHIEF MAGNETICIAN

Back to report that Canada's magnetic pole is more or less behaving itself was Ralph D. Hutchison, chief magnetician of the Dominion observatory, who found the phenomenon carrying on normally with its centre in Devonian Bay, on the northwest side of Prince of Wales Island.

Along with Hutchison were an assistant, Philip N. Daykin of Vancouver; a geographer, Ben Shiman, and a seven-man crew. Glenn MacMillan, head of the Dominion observatory terrestrial magnetism section, was on hand to congratulate the scientists on the two-month trip, and pronounced it "very successful."

MOVES NORTHWEST

From these observations, it is believed Canada's magnetic pole, which moved roughly 200 miles north over the 120 years it has been studied, is moving generally in a northwesterly direction. Whether it will continue in the same course is a question. Its centre moves from five to 10 miles a year.

During the two-month operation, the seven RCAF members flew the big Canco into 15 stations from which observations had to be made and at one point landed in water at about 76½ degrees north latitude, the farthest northerly point known at which a plane has been launched on water. This was off the northwest edge of Devon Island on Aug. 5.

Ian Mackenzie Seriously Ill

BANFF, Aug. 31.—(CP)—Senator Ian Alastair Mackenzie, of British Columbia, last night was reported in "slightly improved" condition after suffering a serious heart seizure yesterday.

However, hospital officials here said the 58-year-old senator's condition was "still very serious."

The former federal cabinet minister was stricken at the Rocky Mountain resort of Sunshine Lodge, west of here, Monday, and taken to hospital in Banff. Hospital authorities disclosed last night that the senator was unconscious when admitted to hospital, but said he regained consciousness yesterday.

He had been spending a two-week holiday in this area with his wife when stricken with the heart seizure. He had been scheduled to attend today's opening general session of the Canadian Bar Association convention here.

Hospital authorities said they had been "deluged" with long distance phone calls from all sections of Canada, enquiring after the senator's condition.

Conductor Dies

WATCH HILL, R.I., Aug. 31.—(AP)—Dr. Hans Kinder, 56, internationally famous musician and founder and conductor of the National Symphony Orchestra of Washington, died yesterday at his summer home here.

\$1 MILLION HOLE IS ABANDONED

CASPER, Wyo., Aug. 31.—(UP)—The world's deepest hole—20,321 feet—has failed to produce oil and was abandoned today by the Superior Oil Co.

Officials said the well, Pacific Creek No. 1, had cost more than \$1,000,000 to drill.

Twenty-one newspapers were published in Idaho territory before 1884, but only one of the original 21 still is published today.

Canadian Cadets Win Drill Event

TORONTO, Aug. 31.—(CP)—A Royal Canadian Air Cadet drill team, for the second consecutive year, defeated a team from the United States Civil Air Patrol yesterday at the Canadian National Exhibition competitions.

The Canadian team, composed of air cadets chosen from squadrons throughout Ontario, defeated the CAP United States champions from New Jersey to win the Major General Beau International Challenge trophy.

Planning

If you are engaged on the problem of making the most practical disposition of your estate, the Toronto General Trusts offers you a consultative service based on a broad experience with estates and trusts. This service comprises a careful review of your assets including your business considered in relation to the rest of the estate and an estimate of the probable amount of your Succession Duties. Based on this analysis our Officers can help you to set up a plan which will accomplish your wishes for your beneficiaries in a practical and economical way. We invite your inquiries.

We shall be glad to co-operate with your solicitor and life underwriter in working out a plan for you.

MODERNISTIC TOUCH TO LACOMBE SCHOOL BUILDING

SOMETHING NEW has been added to the old schoolhouse at Lacombe. It is a \$271,000 building expected to be completed by the year-end. The building is modernistic and even at its present stage is a direct contrast to the old schoolhouse at the right. Lacombe recently joined the school

division and the new building is necessary to serve town and district. Also under construction at Lacombe is a \$100,000 memorial centre which will include hall with stage, meeting rooms, bowling alleys.

Lowther, Loughheed; Science Hill, L. R. Cameon, Hardisty.

FIELD OF THATCHER ... Bumper yield.

Ryley Crop To Average 40 Bushels

RYLEY, Aug. 31.—A few rain showers at the right time, well prepared land and good seed have been combined in what is likely to prove a bumper wheat crop.

L. C. Umphrey, farmer of the Ryley district, expects his crop to yield 40 bushels per acre—at least that is the estimate made after careful inspection by him along with the district agriculturalist, N. A. Chomik.

Umphrey's crop consists of 400 acres of Thatcher wheat, sown on breaking and summerfallow, the latter being fertilized at the rate of 20 lb. per acre.

Ryley is 35 miles southeast of Edmonton.

One Polio Case At Wetaskiwin

WETASKIWIN, Aug. 31.—Only one case of polio has been reported in Wetaskiwin this fall, compared with eight or nine a year ago. The one victim of the disease was Ross Sehlha, who was taken immediately to the isolation hospital in Edmonton.

He had a severe case of paralysis, but is reported to be improving. Last year the opening of schools was delayed due to the epidemic, but nothing of that nature appears likely this year.

Wetaskiwin Hits Peak in Permits

Three Alone Touch \$64,000 As Improvements Underway

WETASKIWIN, Aug. 31.—Wetaskiwin's building permits for the year jumped sharply this week when three were issued covering construction of new buildings of a total value of \$64,000.

Northwestern Utilities Ltd. took out a permit for an office and warehouse to cost \$26,000, while the new plant for the Seed Cleaning Association will cost \$18,000. Permit was issued to Nelson and Pearson for an auto court costing \$20,000.

HOTEL WORK

Permit for the Driford Hotel re-building operation has not yet been issued. All the brick work has been torn off the building and it will shortly be in readiness for its new face. It is anticipated the building will be started. The exterior of the seed cleaning plant is complete even to the cupola but the exterior walls have still to be sheathed and the bins inside will also be sheathed. There is still much to be done though it is hoped the building will be operating this fall.

Legion Members Pay Tribute To Comrades

DRUMHELLER, Aug. 31.—Drumheller ex-servicemen in ceremonies conducted here through the Canadian Legion paid tribute to their comrades in Decoration Day service. In the morning the graves of comrades lying in the Drumheller cemetery were decorated with flowers, while in the afternoon Padre C. J. Brown officiated at a brief service held at the cemetery.

Flowers for the occasion were provided from the gardens of ex-servicemen and members of the Canadian Legion. The service has been held annually for the past number of years.

The Canadian Legion and Auxiliary sponsor the ceremony.

Business Change

TOFIELD, Aug. 31.—Messrs. Frank Evans and J. Jefferson of Saskatoon, have purchased the general store business carried on here for several years by A. MacCallie. Mr. MacCallie has moved to Vancouver.

U.K. Set to Show Best Jet Planes

Many Different Types Will Be Seen At Sept. Display

By Michael King

LONDON, Aug. 31.—(Reuters)—Britain's aircraft manufacturers will set out to show they lead the world in jet-powered aircraft when their annual air display opens at Farnborough, Hampshire, Sept. 7.

Two planes listed are faster than the speed of sound (700 miles an hour) and eight can reach speeds between 600 and 700 miles an hour. Fourteen others have speeds more than 500 M.P.H.

Hundreds of visitors overseas buyers are expected along with air attachés, military observers and world aerobical experts. Three years ago only five jet machines were seen at the display. Star of the year's show is likely to be the all-British De Havilland "Comet", acknowledged the world's fastest of its type with four "Ghost" turbo-jets giving a cruising speed of 500 miles an hour at 40,000 feet.

TURBO-JET AIRLINERS

Four turbo-jet airliners, the Vickers "Viscount," the Armstrong Whitworth "Appalo," the Handley-Page "Five" and the Handley-Page "Marathon"—the only aircraft of their kind in the world—will be on show.

The "Canberra One," the RAF's first jet bomber, powered with two Rolls-Royce "Avon" turbo-jets, will lead the demonstrations of Britain's latest military aircraft.

The "Canberra" has not yet finished her trials but these have so far proved as satisfactory as the "Comet" airliner.

Britain's latest jet fighter, the "Meteor Eight," will be shown for the first time. Other new jet fighters will be the Hawker P-108 and the Vickers supermarine type 510—both have sweptback wings and are capable of supersonic speeds but details of the performance of these fighters are secret.

Exports BOOSTED In the first six months of this year Britain's aircraft industry sent more than £11,000,000 (\$44,000,000) worth overseas, £9,000,000 being exported in the same 1948 period.

More than 22 countries have ordered or are at present negotiating for the latest types of British aircraft, engines and equipment.

Man Escapes Debt But Not The Law NELSON, B.C., Aug. 31.—(CP)—Charles Blackstock of Black Diamond, Alta., who fell from the third storey window of a hotel here Aug. 1, without serious injury, is to leave for Calgary tonight under police escort.

City police here said he is wanted in Calgary on a charge of theft of clothing valued at \$100.

There is no blanket ban by Britain or the United States on the sale of military goods to Communist countries having a system of export licensing of equipment which could have military uses. Such exports could be prohibited by the government's refusal to issue the licenses.

The informants say this policy may be liberalized for Yugoslavia.

Inside Hollywood

By Bob Thomas

HOLLYWOOD—(AP)—Robert Walker, a new man since his recent mental treatment, is eager for a shot at directing movies.

"I feel that I'm marking time now," he said on the "Please Believe Me" set. "Acting is fine, it's good training. But you get tired of other people telling you what to do."

"Directing is the creative end of this business. I probably won't get a chance to do it until my contract is up in three years, but I aim to get into it as soon as I can."

BERGEN'S DUMMY Edgar Bergen is having the head of his new dummy made in New York, the body in California. She will be a five-footer.

RUSSELL OFF DRAMA "Rosalia" Russell figures mourning doesn't become her. She says she won't even consider drama. Paramount has promised Ray Milland a crack at directing, which he admits is insurance against old age.

Larry Parks is hunting for a script that will take him away from the Jolson type. Meanwhile, he's playing dates with Betty Garrett.

And now I am kissing this typewriter and the starlets goodbye. The real of the AP Hollywood staff plus some guest stars will keep you informed during my vacation.

PRINCE RUPERT, B.C., Aug. 31.—(CP)—The British Columbia west coast suffered more damage than was at first realized in the earthquake off the Queen Charlotte Islands Aug. 21, it was revealed today.

Belated reports from isolated Cumshewa inlet in the Charlottes said the Aero Logging Company lost up damage estimated in the thousands of dollars.

The main tremor Sunday night dislodged crude oil tank containing 14,000 gallons of fuel. One carried away part of the company wharf in its fall, another crashed 75 feet of trestle when it struck the end of a logging railway.

POLLUTES WATER The escaping fuel polluted a wide fishing and beach area. Camp residences were shaken from their foundations, and the home of manager George Bell was demolished.

All along the Cumshewa inlet, slides carried rocks and trees down the hillsides.

Company officials said the residents, who endured a week of diminishing shocks after the major tremor, were still "in a state of alarm."

PETER PIPER can now pick peck of pickles perfectly painlessly perchance he performs in pickle pastures of Clinton Carter's farm near Mottville, Mich. Carter devised gadget above to ease usual backbreaking task of pickle-cuke picking. Stripped down 1935 autos carry outriggers on which pickers sit in comfort as they work. Cars steer themselves between rows in the 40-acre field.

U.S. and Britain May Permit Arms Sale to Yugoslavia

By Arthur Gavshan

LONDON, Aug. 31.—(AP)—Restrictions on the sale of military equipment to Yugoslavia may be eased shortly by the United States and Britain, diplomatic officials here report.

They said yesterday a decision in the matter is expected when foreign secretary Ernest Bevin reports.

managerial ability. But you can come through with flying colors if you use your head and do your best.

November 23 to December 22 (Sagittarius)—You're in a happy mood. Don't be unreasonable or expect too much in the way of quick gains or snows accomplishment. Qualify your endeavor more important.

December 23 to January 21 (Capricorn)—Neither unfavorable nor too generous a day in tendency. Up to you and demands of routine and plans. Without.

January 22 to February 20 (Aquarius)—Confidentials, activities connected with water and maritime interests require more than casual attention. Be economical of time and energy and you should break even.

February 21 to March 20 (Pisces)—Profit by heeding advice to Aquarius now. Some untoward influences but don't worry. You'll benefit. You will realize your goal.

March 21 to April 19 (Aries)—You're a calm, reasonable way, giving as well as taking. Be informed as well as ambitious.

April 20 to May 20 (Taurus)—Be reasonable in distance. Always be calm and seek advice before acting. Don't rely alone on your knowledge.

May 21 to June 21 (Gemini)—A waiting game may be your solution now, and reviewing others' success in failure will guide you more profitably the careful with domestic matters. They will influence others.

June 22 to July 23 (Cancer)—Be reasonable in distance. Always be calm and seek advice before acting. Don't rely alone on your knowledge.

July 24 to August 23 (Leo)—Make no needless promises. Use the extra going in a calm, reasonable way, giving as well as taking. Be informed as well as ambitious.

August 24 to September 23 (Virgo)—No time to go on chance spree. Stay within your yard of activities. Some unexpected circumstances that can be troublesome if you let them. Concentrate on immediate things, home.

September 24 to October 23 (Libra)—All is not gold that glitters, and true goes for everyday prospects. Check closely for values, concentrate on essentials and good things. Be content, too.

October 24 to November 23 (Scorpio)—A tricky period that may test patience as well as your ingenuity and

CHIP SHOTS

By Hugh Watson

The other day Mayfair's play-for-pay man, Pete Olynyk, said playing conditions would be made as easy as possible for the shotmakers participating in the Alberta Open golf tournament starting Saturday.

Pins are being placed in the centre of greens; grass is getting a close crew-cut; and bunkers are being raked. The first hole is a 460-yard par four, finally was conquered with a neat seven, I called it a four "putts" in a trap doing most of the damage.

This performance immediately dampened what enthusiasm remained, especially as Ben Hogan's condensed version of "Power Golf" had failed to have the advertised effect.

Leaving through another booklet we uncovered our mistake. Never, under any circumstances (the book said), elevate the left shoulder when playing an intentional slice with a number three wood.

Now, watching your left shoulder and keeping your eyes glued on the ball at the same time requires marvelous co-ordination. But we made it. One paragraph later the tips came in for adjustments.

The beginner must learn to roll with his swing. "Trouble with most golfers," the book said, "they don't hit the ball where they want to."

That solved everything. Hit the ball where you want to and the game is yours. No goal there is too high.

An entire book was devoted to putting. Not mentioned was how to reach the green with a club to display your short stroke ability.

GRAY GETTING READY

Glenn Gray, whose choice of federals runs from bright scarlet to dull orange yesterday it was yellow, must have glanced at the same book. Coming in from the ninth hole, we found Gray on the practice green making Olynyk's best putter perform tricks.

"It's really criminal the way I sink 'em here," said Gray, dropping a long 14-footer. "Come Saturday and I'll probably have to use a billiard cue to get 'em down."

The colorful provincial amateur champion says his eccentricities drives have been behaving. "Fact of the matter is," said Gray, "I haven't been hitting the ball hard enough to develop a hook. Been working hard. Muscles tightened up and my swing isn't the same."

That was enough golf for one day. The book says a little practice is what counts. Follow the rules and become a consistent golfer.

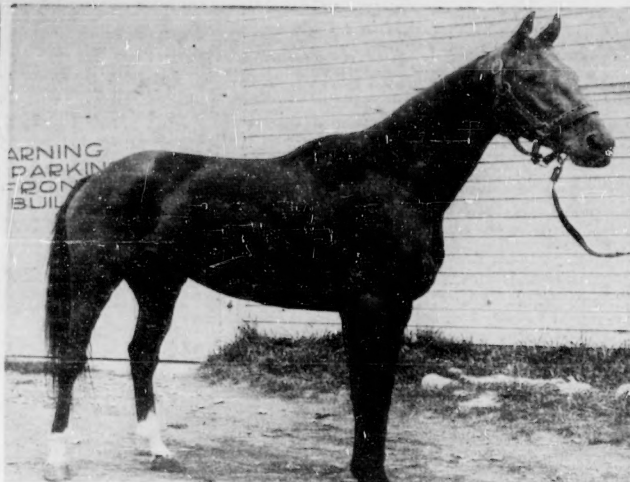

And we are consistent... consistently lousy.

BUS ACCIDENT INJURES PLAYERS

RICHMOND, Ind., Aug. 31.—(AP)—A bus transporting 18 members of the Portsmouth, O., baseball team of the Ohio-Indiana League skidded and overturned at a highway intersection south of here late yesterday, injuring the team manager and two players.

Injured were: Homer Cox, 22, Lynnwood, N.C., manager and catcher for the team; Allen Romberger, 22, of Claremont, Pa., a pitcher; and Frank Major, 20, Salem, N.J., a second-baseman.

Physicians said they are not in serious condition.

BISONS HOLD WIDE MARGIN

BU-FALD, Aug. 31.—(CP)—Buffalo Bisons still hold a six-game lead in the International Baseball League over Rochester Red Wings, both winning yesterday at the expense of the Canadian Empire.

Bisons walloped Montreal Royals 11-2 with Bob Hooper pitching his 17th triumph against three losses. He gave up four hits, walked six and fanned five. Bisons meantime were punishing Clarence Podbell and Mel Himes for 14 safeties.

At Rochester Clyde Boyer struck out seven as the Wings beat Toronto Maple Leafs 3-2. Ed Mierkiewicz homered with bases empty in the fifth for the winning run as Toronto's Max Peterson was beaten after stopping the Wings on three previous occasions.

Outlaws Take Lead

Rumie's Outlaws got the jump on Texaco Oilers in the Senior B baseball playoffs at Clarke Stadium last night, winning the first game of a best-of-seven series 7-3.

Second game of the round is scheduled for Clarke Stadium tomorrow night at 6:15.

Outlaws scored three runs in each of the first two innings to grab a lead which Oilers were never able to overtake. In the first frame, with two out and two on for Rumie's Oiler centerfielder, Grant Defraigne dropped Chuck Oliver's long fly. By the time the topsoil had settled Oliver and his mate had scampered home.

Freddie Clarke's home run with two aboard in the second provided the winners with three more runs. Outlaws led 6-3 at the end of the third.

Lukey Protests Cubs' Use Of Harney In 10-2 Triumph

Infringement Has Jawn Riled, Claims 9-0 Victory

Cubs won a ball game from Eskis by a 10-2 score at Renfrew Park last night but it looks now as though Big Four league president Sam Irwin will have to take the triumph away from them and award it to their victims.

Briefly, the baseballs had hardly all been put away following the uneven contest when Eskis' general manager John Ducey announced that the hotelmen had found a protest with Irwin.

Box Score

PERMISSION GRANTED

When Cubs were in Calgary last week-end, Edwards sought out Irwin about the matter and upshot was the permission to use Harney was granted. Only catch is that Ducey, at the time of filing his protest late last night, maintained that Harney's reinstatement was not to become effective until playoffs got underway.

Communicate to the league president asks that the game be declared forfeited to Eskis by a 9-0 score. No suggestion has been made of a replay.

It's not just clear what Eskis hope the accomplish, even should Irwin uphold their protest. Cubs clinched first place last week-end, Eskis can't do better than finish second.

But as Ducey explained it: "My players wanted to protest and under the circumstances that's good enough for me."

If the game is thrown out—and the stadium closed along with it—big loser will be Morris Hawkey, Cubs' blond right-hander who earned 11 hits to gain what looked like his 11th win against his defeat.

PURITY

Eskis' manager, Ralph Morgan, who hasn't done much pitching for several seasons, took over as Hawkey's opponent to start.

However, Cubs chased him in the third inning during a seven run upswing and Hawkey might have taken it easier against the parade of Eskis hurlers who came after.

However, was for bearing down all the way, whatever about most of the other players in the game. Except for Ted Tappe, who got four hits as he continued his recent swat surge, Hawkey had most of the Eskis sluggers in his hip pocket.

Eskis' handyman Ed Morris was chased from the premises by umpire John Lupul in the sixth inning for lodging a too vigorous protest over a called strike.

Close to 100 fans lined Eskis supporters from nearby Devon were on hand. What with their favorites taking a beating of thumping, their pilgrimage could hardly be declared an unqualified success.

Still they appear to have gods of enjoyment, their fun-making including a snake-dance around the field, along about the fifth inning.

BIG SIX

Leading batters: three leaders in each league. 1. Olynyk, 117 hits; 2. Williams, 108 hits; 3. Rogers, 108 hits.

Best pitchers: 1. Olynyk, 108 hits; 2. Williams, 108 hits; 3. Rogers, 108 hits.

Home runs: 1. Olynyk, 108 hits; 2. Williams, 108 hits; 3. Rogers, 108 hits.

Runs batted in: 1. Olynyk, 108 hits; 2. Williams, 108 hits; 3. Rogers, 108 hits.

Errors: 1. Olynyk, 108 hits; 2. Williams, 108 hits; 3. Rogers, 108 hits.

Double plays: 1. Olynyk, 108 hits; 2. Williams, 108 hits; 3. Rogers, 108 hits.

Strikeouts: 1. Olynyk, 108 hits; 2. Williams, 108 hits; 3. Rogers, 108 hits.

Walks: 1. Olynyk, 108 hits; 2. Williams, 108 hits; 3. Rogers, 108 hits.

Hit by pitch: 1. Olynyk, 108 hits; 2. Williams, 108 hits; 3. Rogers, 108 hits.

Left on base: 1. Olynyk, 108 hits; 2. Williams, 108 hits; 3. Rogers, 108 hits.

Fielding percentage: 1. Olynyk, 108 hits; 2. Williams, 108 hits; 3. Rogers, 108 hits.

Team batting average: 1. Olynyk, 108 hits; 2. Williams, 108 hits; 3. Rogers, 108 hits.

10 Purity's Slap Buffs For 4-2 Triumph

CALGARY, Aug. 31.—(CP)—Using a total of five pitchers, Purity turned back their city-rival Buffaloes 4-2 in a keenly contested Big Four baseball league fixture before 1,000 fans.

Purity scored singletons in each of the first, fourth, fifth and eighth inning to take a 4-0 lead before Buffs scored twice in the bottom half of the eighth.

Purity hurlers allowed Buffs eight hits while the winners got to the offerings of Ken Terry and O'Neill, who shared mound duties for Buffs, for nine hits. Both sides committed three mis-plays.

Catcher Ernie Choukalos paced the Purity attack with two hits, one a towering homer. Blackball and Gadsby led Buffs with two hits each.

The fixture ended the regular Big Four schedule here and paved the way for the semifinals which get underway in Edmonton on Friday night with Calgary Purity opposing Edmonton Eskis.

Games are billed for Renfrew Park Friday and Saturday, and the scene will then shift to Calgary for three games next Monday, Tuesday and Wednesday, if the weather permits.

Trap and Skeet Shoot Scheduled Labor Day

City trap and skeet championships will be held at the Edmonton Gun Club's West Jasper Place range on Labor Day. The shoot is open to all marksmen living in Edmonton, according to word received last night from EGC executive Charlie Craddock.

The skeet competition commences at 9:30 a.m. and traps is scheduled for 1 p.m.

Expected to enter this year's shoot are the 1948 skeet and trap champions, Wes Hicks and W.C. (Bill) Davis, respectively.

REPLIES TO CHARGES

Craddock took time out to reply to certain charges made recently by a member of the Hillcrest Gun Club concerning the condition of the traps at the Edmonton club. The Hillcrest spokesman charged that the city championships should be held at the EGC range this year because some of the traps were in poor working order.

Said Craddock: "It is true that we have had difficulty with some of our traps but these mechanical breakdowns have been repaired."

As a barfing shot, Craddock added:

And I don't see why criticism should come from Hillcrest. After all, where would that club be if several of our members didn't patronize it?"

Only Hillcrest officials know the answer to that one.

Firemen Fastballers Trounce Trolleyman

Firemen won the second game of the intermediate minor fastball final last night, defeating Edmonton Transit System 5-3 at South Kingsway.

Smith's Homer Brings Victory

Billy Smith knocked a home run with the bases loaded to give Cromdale a 9-7 win over Stadium at Renfrew Park yesterday.

Victory put Cromdale one notch higher in the Mile Baseball round-robin tourney for the Brooklyn Dodger trophy.

Stadium scored 101 runs in 7 1/2 innings, 101 hits, 3 errors, 3 walks, 10 strikeouts, 10 left on base, and 10 runs batted in.

Cromdale scored 97 runs in 7 1/2 innings, 97 hits, 3 errors, 3 walks, 9 strikeouts, 9 left on base, and 9 runs batted in.

Feminine Authority Shows To Good Advantage Here

LAURA POSTWEILER

By J. V. O'NEILL
Business Staff Reporter
In Edmonton's list of notable accomplishments it is the feminine authority that has shown to good advantage here. Laura Postweiler, of 1771 10th street, president of the Women's Business Council, takes the prize for at least one month. Mrs. Postweiler emphasizes she is not a "business" but rather a "woman" who has been successful in her own way.

THERE'S NO TELLING WHAT A MAN WILL DO

Edmonton, Aug. 31.—The Edmonton Police Department is looking for a man who has been seen in the city for the son of a former Japanese prisoner of war. The man is described as being about 30 years old, 5 feet 10 inches tall, with dark hair and eyes. He is wearing a dark suit and a light-colored shirt. He is said to be a former prisoner of war and is looking for a job. The police are offering a reward of \$100 for information leading to his capture.

They're the peach from the east that are easy to take from the store, easy to peel, and keep their clean, fresh complexion.

CHEWING GUM, which Actress Patricia White is about to enjoy, won't interfere with your dieting routine—but constant chewing may not be good for the teeth.

WHY GROW OLD

Chewing Gum No Asset When Weight Reducing

By Josephine Lowman

THE FRIDAY QUESTION BOX

Q. "Will you please answer the following in your question box? Is it just as beneficial to exercise two or three times a day as just once? Does it do any harm to chew gum between meals trying to reduce?"

A. You may break up your exercise periods if you wish, in fact, if you experience fatigue when doing them at one time it is best to do so. The number of exercise periods are not important. It is important how many times you do an essential exercise each day. You can exercise while and rest, and exercise again. You should avoid fatigue. Even when you break exercising up into several...

Gum is sweet. However, I do not think you have to worry about the calorie content too much. It is not supposed to be good for you.

Q. "I am 48 years old, of medium bone structure, I am 5 feet, 3 1/2 inches tall, I weigh 135 pounds. My hips measure 34 inches, waist 24 inches, and hips 28 inches. What are your recommendations, especially concerning weight?"

YOUR BABY AND MINE

Medical Care Needed For Violent Vomiting

By Myrtle Meyer Eldred

It's always messy and inevitably disturbing to the mother when the baby loses some of its food by regurgitation. The amount lost actually may be small but it always seems to equal the amount imbibed.

Yet all babies spit up some of the time. Their stomachs overflow easily when they are active and the surplus runs out of the mouth. The longer food stays in the stomach the more acid it becomes, so that the baby's stomach is not happy. If the baby is losing food there is the additional point that, "it's as sour." That is the way it should be, however much more disagreeable when vomited.

The baby may spit up (1) because of too much food, (2) because of a formula or diet that is digestively upsetting to him, (3) because he is being handled too much after eating. Some of these conditions may be present at the same time and it may be expected that no baby will get through the day without some vomiting.

There is a type of vomiting which parents should be familiar with. It is not related particularly to food or handling, but it is caused by some physical malformation of the opening of the stomach or some structure of the muscle which leads from the stomach to small intestine. This type of vomiting is called projectile and is marked by the violence with which the child vomits.

This happens because the stomach is working so hard to get food through that malformed or constricted pylorus that inevitably after clumping it round and round it expels it in the only direction in which it will go, out of the mouth.

Medical attention is needed, and badly, for this type of vomiting. The main thing is that the parents shall understand that it isn't the baby's formula or food which is the cause of the trouble.

That, when more drastic measures are taken, the baby will be able to eat.

On the other hand, if the parents discuss in more detail the various reasons for vomiting, they will be able to handle a situation.

THREE CLIMBERS BUZZED BY FLYING SAUCER

SEATTLE, Wash., Aug. 21.—Three mountain climbers and today they were buzzed by a flying saucer that was "round, almost transparent and sounded like a buzz-saw."

Roger Hamilton, his wife, Patricia, and Dick Hamilton said they sighted the object near Snow Lake on the Snoqualmie Pass Sunday. The trio said it went so fast "none of us had time to take a picture."

Tobe on Fashion—

High Drama in Furs—The Mink Stole

Time was when every woman's ambition was to own a mink stole. Now she wants that—plus a mink stole. For the excellent "small fur" stoles, capes, scarves—have taken the fashion world by storm. They are not so small either. Some of the smartest stoles have even added tiny sleeves and collars.

Stoles in fur—hit stoles are also the most useful furs one can own. You wear them over dresses early in the fall, by day and night. Later you wear them with suits and suit up in winter wearing your stole with an untrimmed cloth coat.

Stoles in fur—hit stoles are also the most useful furs one can own. You wear them over dresses early in the fall, by day and night. Later you wear them with suits and suit up in winter wearing your stole with an untrimmed cloth coat.

Union Agent Dies

CALGARY, Aug. 31.—(CP)—Fred M. (Doc) McArthur, secretary and business agent of Local 1775 United Brotherhood of Carpenters and Joiners of America, died today.

The Expert Player Thinks A Hand Out
By William E. McKenna
The expert bridge player, who has won many tournaments, says that the game of bridge is not as difficult as it is often made out to be. He says that the key to success in bridge is to play the cards as they come, and not to get too worried about the score.

WARNINGS to motorists were heeded out at downtown intersections yesterday and today by accident victims. Colored men were reminded to all to watch traffic regulations to ensure safety of all. Campaign to date has seen over 300 traffic offences reported, but Mr. X is still at large, breaking all rules and regulations.

POLICE MAKE HER TAKE IT

Gambling Granny Gets Glutamic Acid Again

By that name, she was known to the police. She was a woman who had been in the hospital for a long time. She was a woman who had been in the hospital for a long time. She was a woman who had been in the hospital for a long time.

JAYWALKING Edmontonians are being warned of their lethargy this week as one of Edmonton's finest, traffic constable Bud Ward does out harassing and timely advice from his post at downtown busy intersections. Campaign is all part of Safety Week here as officials strive to cut down number of offences.

Canada Visit Not Assured

element of the economy.

It is expected the talks will end tomorrow Sept. 10 when the Canadian government will announce its decision.

General assembly of the United Nations, which began in September, opens Sept. 20 at Lake Success.

Chemists still don't know exactly what happens when a person has a heart attack.

Monday night.

DUEL BUT NO GUNS, PISTOLS

JONESBORO, Ark., Aug. 31.—(AP)—An affair d'honneur was fought with walking sticks here last night. The duellists—Ed Reynolds, 71, and John McGilgus, 65—landed in the hospital. They share the same house and grocery bill. They disagreed on who ate a chicken—southern fried.

Six Students Win Awards From McGill

MONTREAL, Aug. 31.—(CP)—McGill University has announced that six of Canada's leading students, all "firsts" in their respective high schools, will come to the University next month under the most valuable scholarship McGill has to offer.

They will provide for payment of fees, board and lodging in university residences and, where necessary, travelling fares. The scholarships are renewable annually providing the students continue to make satisfactory progress.

MEMORIAL SCHOLARSHIPS

The scholarships are the Morris W. Wilson Memorial Scholarships, in memory of one of Canada's greatest bankers who, at the time of his death, was chancellor of the university, and the J. W. McConnell Memorial Scholarships, to commemorate the "gallant men and women of McGill University who have given their lives in the service of Canada."

There were three awards for each of the scholarships.

The winners are:

Wilson Memorial Scholarships—George Traer Van Allen, 18, of Vancouver; Robert Charles Thom, 18, formerly of Craik, Sask., and now of Enfield, Sask.; and Max Ruth Lindt, 16, of Moose Jaw, Sask.

McConnell Memorial Scholarships include Cyril Max Ray, 17, of Calgary, and Gordon McKenzie, 19, of Kamloops, B.C.

Holiday Fire Hazard Stressed

MONTREAL, Aug. 31.—(CP)—The Canadian Forestry Association warned yesterday that Labor Day week-end "may well be marked by another tragic round of forest fires if the same degree of public responsibility in the woods and countryside prevails."

Norton J. Anderson, vice-president and general manager of the association, appealed to the public to exercise common sense and good judgment with fire.

Lauder's Strength Is Diminishing

STATHAVEN, Scotland, Aug. 31.—(UPI)—Sir Harry Lauder, the 70-year-old Scots minister and composer, spent a "dainty nervous night," his physicians said today.

Sir Harry has been ill with cerebral thrombosis and uremia since Aug. 20.

Culture of Europe Assisted by Canadians

OTTAWA, Aug. 31.—(CP)—Canada is doing a big job in rehabilitating creative artists, scientists, teachers and school children in war-devastated European areas, the Canadian Reconstruction Council said today in a brief prepared for the Royal Commission on arts and science development.

A voluntary organization, the council works through the United Nations educational, scientific and cultural organization.

The council's work started back in 1947 when the reconstruction needs in war-devastated countries were still at their peak.

In its allocation of 20,000 school books, the council didn't overlook war-torn countries as Poland or Germany and Italy, former war enemies.

France, Greece, Germany and Italy each got 3,000 books; Austria obtained 1,500; Belgium 1,500; Ethiopia 500; The Netherlands 1,500; Malta 500; Poland 2,000; and displaced persons camps 150.

FOOD AND CLOTHING

Parcels of food and clothing, valued at about \$50,000 went to the following basic Austria, \$10,000; France, \$12,000; Germany, \$12,000; Italy, \$10,000; Ethiopia, \$2,000; and the Philippines received about \$10,000 worth of scientific equipment.

About \$46,000 worth of artists' supplies were being distributed on the following basis: Austria, \$10,000; France, \$12,000; Germany, \$12,000; Italy, \$10,000; Ethiopia, \$2,000; and the Philippines received about \$10,000 worth of scientific equipment.

The average about \$2,500 each, are being allocated in European scientific and professional study in Canada. Only Hungary had declined the offer and the fellowships were being transferred to Ethiopia.

Annual Meeting To Be Broadcast

MINNEAPOLIS, Aug. 31.—(AP)—An annual stockholders' meeting will be broadcast over a local radio station Sept. 12.

Pillsbury Mills Inc. 80-year-old flour milling concern, will air its annual meeting over CBS station WCCO at 9:30 p.m.

The firm believes it is the first time a corporation's annual meeting will be open to the public by radio.

The program will explain briefly the structure of an annual meeting and describe the legal transactions. Short reports on the company's operations will be given by its top executives.

Polio Epidemic

MELBOURNE, Aug. 31.—Reuters—Polio has reached epidemic proportions in Victoria, C. P. Garfield, state health minister, announced last night. He warned that the peak of the epidemic might not be reached until the southern hemisphere summer. Death department figures showed 41 cases reported this year, with 25 deaths.

Canning Time Is Here

How annoying it is to run out of jars. Don't let your canning supplies get too low... buy enough jars, metal or rubber rings now to tide you through the season.
